* Standard MOQ for gummies: 10,000 finished retail packs. Paid industrial test orders start at 1,000 finished retail packs, subject to the agreed formula and project feasibility.

** Ingredient quantities, standardisations, pack sizes and servings reproduce the formulation baseline dated October 7th 2026. Final ingredient forms, specifications, overages, formulation adjustments and target-market requirements are defined during project-specific development and production validation.

This B2B catalogue presents base formulations for product development. The project notes describe ingredients; they are not promises of health outcomes. The final product name, label, claims and suitability for the intended target group are reviewed for the target market before launch.
